THE MAIN EVENT

RADIAL ROCKER BRUSH 14"

A scrub for every mess

Swap scrubs to match the dirt.

- Clean in one pass - patented tool: it scrubs on the up-stroke and rinses on the down-stroke, so there's no going back to rinse.
- The ROCKER block pivots to keep the scrub flat on the glass, for harder agitation on stubborn debris.
- Water flows over the bristles and cascades down the glass, flushing debris off without chasing it.
- Swap scrubs to match the dirt, from microfiber to stainless mesh and green rubber.
- Fits REACH-iT and most other pole brands with the matching adaptor.

Width	14" / 35.6 cm
2 passes	cleans a 26" / 66 cm pane
Construction	ROCKER Dual-Agitation
Agitation	9 / 10
Rinse flow	7.5 / 10
Rinse bar	HYDRO-BLADE II+
Scrubs	Interchangeable, on a pivoting ROCKER block
Fits	Any pole, with the matching adaptor
Warranty	1-year manufacturer warranty

In the box

- 1 x RADIAL ROCKER 14" / 35.6 cm brush
- 1 x HYDRO-BLADE II+ Hi-FLO rinse bar, fitted
- 1 x RADIAL HANDLE
- 1 x PIVOT (pole side)
- 17 x scrubs: 2 x MAGIC ERASER (fitted), 3 x NON-SCRATCH, 1 x CARBORUNDUM, 1 x TOM CAT, 1 x GREEN RUBBER, 3 x STAINLESS MESH, 2 x STAINLESS WOOL, 2 x BRONZE WOOL, 1 x MICROFIBER, 1 x BLUE METAL

- Clean in one pass - patented tool: it scrubs on the up-stroke and rinses on the down-stroke, so there's no going back to rinse.
- 26" / 66 cm wide on the light LITE chassis, built for glass-clad commercial buildings.
- The ROCKER block keeps the scrub flat on the glass across the full width.
- 30 jets on the Hi-FLO HYDRO-BLADE II+ bar flush debris down the glass at 1/2 GPM / 2 LPM.
- 13 scrubs in 8 types to match the dirt: TOM CAT, carborundum, non-scratch, green rubber and 4 kinds of microfiber.

SHOCKSTOP : The Insulator Handle / Extension

The safety handle

A KEVLAR insulator handle that lowers your risk of electric shock and adds up to 5 ft / 1.5 m to your pole.

- Non-conductive KEVLAR: very light, very rigid, and it does not carry current.
- Adds up to 5 ft / 1.5 m to any REACH-iT pole, and weighs under 1 lb / 0.45 kg.
- Fits every professional REACH-iT pole: it is section #8 of the range.
- Slide it over the pole handle, set the height, close the clamp. As an extension, overlap at least 8" / 20.3 cm.
- Works with REACH-iT CONNECT, even after you pull the pole apart to use fewer sections.

Material	KEVLAR, non-conductive
Adds	Up to 5 ft / 1.5 m
Weight	Under 1 lb / 0.45 kg
Fits	All professional REACH-iT poles

RADIAL HI-FLO Tube - 75FT

More water at the brush

A slim tube that runs along the ground and up the pole, straight to your RADIAL brush.

- Built for flow: made to get the most water through to your RADIAL brush.
- Runs along the ground, then up the pole to the #1 clamp or straight to the brush.
- Join any two lengths with the 10:10 PUSH-FIT. Collar locks stop the joins coming apart.
- The PUSH-FIT to GARDENA male adaptor connects to any GARDENA female fitting.
- Works on a reel.

Length in this deal	75 ft / 22.9 m
Tube size	3/8" / 10 mm outside diameter

RADIAL LITE 14" (100% NYLON)

Dual trim bristles

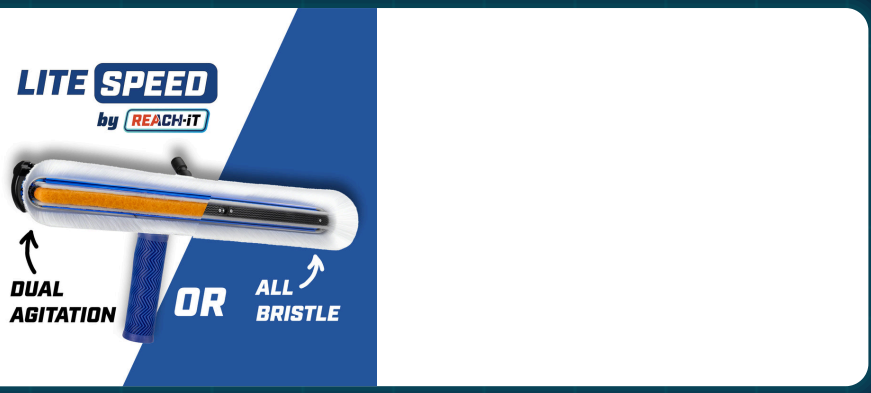

Press harder to bring in the stiffer inner bristles for tougher dirt.

- Clean in one pass - patented tool: scrub on the up-stroke, rinse on the down-stroke, without lifting the brush off the glass.
- Dual-trim bristles in 4 rows. Press harder to bring in the stiffer inner bristles for tougher dirt.
- Light enough for flexible and lightweight carbon poles that are too soft for a full RADIAL.
- Arced end bristles roll through corners to clear spider webs and nests.
- PIVOT swivels to any angle, even below the waist. Fits most poles with the matching adaptor.

Width	14" / 35.6 cm
2 passes	cleans a 26" / 66 cm pane
Construction	All-Bristle, dual trim, 4 rows

LITESPEED 18" BRUSH

A scrub for every mess

5 of each in the box.

- Clean in one pass - patented tool: it scrubs on the up-stroke and rinses on the down-stroke, so there's no going back to rinse.
- Convertible: it works as an all-bristle brush, and you press harder to bring in the scrub pads for spot dirt like bird or bee mess. You choose on the glass.
- Dual-trim nylon bristles with a center scrub pad, sitting between RADIAL LITE (3) and ULTRA-LITE (7) for agitation.
- Ships with low-flow HYDRO-BLADE II+ bars (1/3 GPM / 1.3 LPM) for 5/16" / 8 mm tube, plus Hi-FLO bars for 3/8" / 10 mm tube.
- Scrubs in the box: 5 each of non-scratch, carborundum, TOM CAT and magic eraser.

RADIAL ULTRA-LITE 22" MAX

A scrub for every mess

21 in the box, 4 types.

- Clean in one pass - patented tool: it scrubs on the up-stroke and rinses on the down-stroke, so there's no going back to rinse.
- 22" / 55.9 cm wide for glass-clad buildings: more glass per stroke, and a steadier brush at height and on corner windows.
- Just 14.8 oz / 420 g with RADIAL HANDLE and PIVOT, light enough to control on a long pole in the wind.
- Dual-Agitation: angled nylon bristles lift loose dirt while the center scrub pad cuts stubborn dirt in the same stroke.
- Ships with the low-flow HYDRO-BLADE II+ bar (0.3 GPM / 1.5 LPM) plus a spare Hi-FLO bar (1/2 GPM / 2.0 LPM).

Width	22" / 55.9 cm

SOLAR ROCKER 16"

9 scrubs in the box

Soft SILICON for anti-reflective coating, tougher pads for the rest.

- Clean in one pass - patented tool: it scrubs on the up-stroke and rinses on the down-stroke, so there's no going back to rinse.
- Built for panels at an angle: 26 jets under the brush put extra water down the panel to pull the dirt off on the down-stroke.
- The locking PIVOT gooseneck sets at a negative angle, so you can clean from the roof apex with the rinse bar still on the low side.
- Safe on anti-reflective coating (A.R.C): the soft SILICON scrub grabs dirt without dragging grit across the panel.
- 16" / 40.6 cm puts more scrub pressure into every stroke.
- Comes with 9 scrubs: 4 non-scratch, 1 silicon, 1 green rubber, 2 stainless mesh, 1 stainless wool.

Width	16" / 40.6 cm
2 passes	cleans a 30" / 76 cm panel
Construction	ROCKER Dual-Agitation
Agitation	9 / 10
Rinse flow	10 / 10
